

**West Travis County Region  
Glenlake Water System**

<b>Service</b>	Retail water treatment and distribution
<b>Customers</b>	Residents of Glenlake, Westminster Glen, River Pointe and Panther Hollow
<b>Facilities</b>	Interconnect with River Place MUD and water distribution system
<b>Estimated Population Served</b>	980
<b>System Performance</b>	System capacity: 780,000 gpd Peak daily flow: 599,000 gpd

**Background** LCRA acquired the water supply assets of Glenlake WSC in October 2000 and secured a long-term wholesale water supply contract for a total of 779,000 gpd from River Place MUD in 2002. In August 2007, LCRA secured an additional contract with River Place MUD which allowed LCRA to utilize the MUD’s elevated storage tank. This contract eliminated the need for a future tank project.
