

Southeast Region

Matagorda Dunes Wastewater System

Service	Retail wastewater collection and treatment
Customers	LCRA Matagorda Bay Nature Center and nearby RV park, townhomes, and homesites
Facilities	Wastewater collection system and wastewater treatment plant
Estimated Population Served	60
System Performance	Total permitted capacity: 25,000 gpd Initial capacity: 50,000 gpd

Background With the development of the LCRA Nature Center, LCRA staff determined that a regionalized wastewater system could provide service to the entire community and take advantage of a cost benefit of having additional customers on the system. The treatment plant has been constructed. The collection system is available for future connections.
