

**West Travis County Region**

**West Travis County Regional Wastewater System**

<b>Service</b>	Retail wastewater collection and treatment, raw water/effluent irrigation
<b>Customers</b>	Lake Pointe subdivision, partial service in City of Bee Cave and Highway 620 corridor, and businesses on Bee Cave Road
<b>Facilities</b>	Treatment plant, effluent storage ponds and collection system
<b>Estimated Population Served</b>	5,320
<b>System Performance</b>	Total permitted capacity: 1 mgd Maximum monthly daily average (12 month): 307,000 gpd

**Background** LCRA bought the Lake Pointe wastewater treatment plant and collection system in July 2000, and has expanded these facilities to meet the wastewater needs in and around the City of Bee Cave. Because of the high growth in the service area, plans are under way to expand the system to an ultimate capacity of 1 mgd.
