

# Where does water from the Highland Lakes go?

LCRA manages lakes Buchanan and Travis under the state-approved Water Management Plan to provide water for more than a million people and to industries, businesses, agriculture and the environment in the lower Colorado River basin.

## Customer water use in 2017

**Municipal consumption** — 115,416 acre-feet (42%)

**Environmental requirements** — 67,762 acre-feet (25%)

**Agricultural use** — 59,266 acre-feet (22%)

**Industrial needs** — 22,918 acre-feet (8%)

**Recreational** — 7,225 acre-feet (3%)

Average water use in Austin, per person

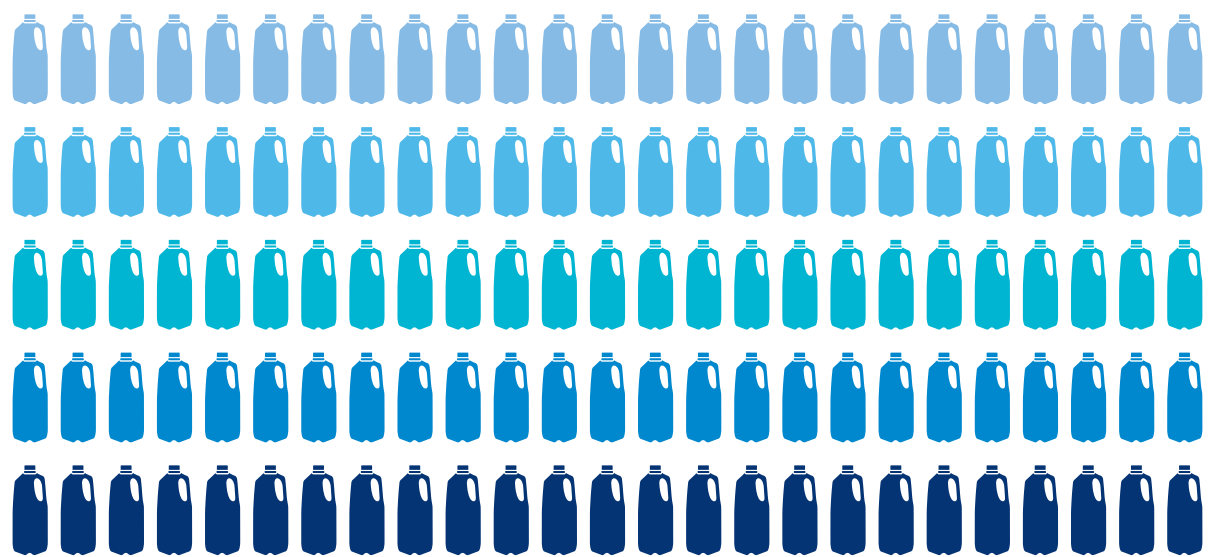

# 125

gallons of water per day.

## 1.4 MILLION

people rely on water from the Colorado River
