OVERVIEW OF LCRA TRANSMISSION SERVICES CORPORATION

In connection with the implementation of retail competition in the electric utility industry in the state of Texas, LCRA was required by the Texas Legislature in its amendments to the Public Utility Regulatory Act (enacted in 1999 under state legislation known as Senate Bill 7 and referred to as SB 7) to unbundle its electric generation assets from its electric transmission and distribution assets. LCRA conveyed, effective Jan. 1, 2002, all of its existing electric transmission and transformation assets (collectively, the Transferred Transmission Assets) to the LCRA Transmission Services Corporation (LCRA TSC) pursuant to the terms of an Electric Transmission Facilities Contract (the Initial Contractual Commitment), dated Oct. 1, 2001.

LCRA TSC is a nonprofit corporation created by LCRA to act on LCRA's behalf pursuant to Chapter 152, Texas Water Code, as amended. After Jan. 1, 2002, LCRA TSC engaged in the electric transmission and transformation activities previously carried out by LCRA and assumed LCRA's obligation to provide, and the right to collect revenues for, electric transmission and transformation services. LCRA TSC is an electric transmission service provider (a TSP) under the state's open-access electric transmission regulatory scheme within the approximately 85% area of the state covered by the Electric Reliability Council of Texas (ERCOT). In such capacity, LCRA TSC is entitled to receive compensation from all electric distribution service providers using the electric transmission system within ERCOT. As a TSP in the ERCOT region of the state, the rates that LCRA TSC will charge for transmission services are regulated by the Public Utility Commission of Texas (PUC) and determined pursuant to transmission cost of service rate proceedings filed with and approved by the PUC.

Within the framework of SB 7, LCRA TSC implements the electric transmission business of LCRA, including the expansion of electric transmission services outside of LCRA's traditional electric service territory. LCRA personnel are responsible for performing all of LCRA TSC's activities pursuant to a services agreement between LCRA TSC and LCRA. This includes procuring goods and services on behalf of LCRA TSC and is reflected in the LCRA Board agenda contracts.

Under the LCRA Master Resolution, defined as the LCRA Board resolution governing LCRA's outstanding debt, and certain provisions of state law, the LCRA Board is required to exercise control over all operations of LCRA TSC. This control includes approval of LCRA TSC's business plan and of the sale or disposition of any significant assets of LCRA TSC. The Board of Directors of LCRA TSC (LCRA TSC Board) is appointed by and serves at the will of the LCRA Board. The current membership of LCRA TSC Board is made up entirely of the existing LCRA Board.

Budget-to-Actual Highlights

Key takeaways:

- Higher-than-budgeted interest income, partially offset by lower-than-budgeted cost of service revenues due to lower billing units, primarily drove the year-to-date and year-end forecast revenue variances.
- Lower-than-budgeted labor, transportation expenses and assigned enterprise expenses primarily drove the year-to-date and year-end forecast expense variance.
- The debt service coverage ratio is forecast to be higher than budgeted primarily due to lower-than-budgeted expenses and debt service combined with higher-than-budgeted interest income.

Board Metrics

Board Metric	Description	Compliant
Equity Ratio	LCRA TSC will build equity that will maintain appropriate access to capital markets and is consistent with regulatory guidance. While LCRA TSC may be highly leveraged during periods of rapid growth, LCRA TSC business plans will specifically address the accumulation of equity to achieve and maintain a minimum long-term equity position of 20%.	✓
Debt Service Reserves	LCRA TSC will covenant debt service reserves in the amount of six months of maximum annual debt service requirements on outstanding debt. Debt service reserves may be collected through rates or met with proceeds from additional debt or through the use of a surety to mitigate rate impacts.	✓
Operating Reserves	LCRA TSC will build and maintain appropriate target levels of operating reserves as follows: six months of average debt service on all outstanding LCRA TSC debt and other obligations to LCRA; and two months of average operating and maintenance expenses, including those billed by LCRA. If at any time the reserves are less than the target levels set forth in this policy, the Board will promptly implement a plan, to be recommended by staff, to increase rates, reduce costs or otherwise cause there to be sufficient revenues to replenish the reserves to such target levels within 12 months.	✓

Net Income Trends Cumulative Fiscal Year to Date

Key takeaway:

- Net income increased compared with the prior year primarily due to an increase in transmission revenue and a decrease in regulatory expense, partially offset by increases in interest on debt and depreciation expense. The increase in transmission revenue was due to an increase in rates. The decrease in regulatory expense was due to the discontinuation of accounting for regulated operations related to depreciation expense at the end of FY 2025.

5. Approve LCRA's Amended and Restated Twentieth Supplemental Resolution to the LCRA Transmission Contract Revenue Financing Program to Amend the LCRA Transmission Contract Revenue Notes Series C and Taxable Series C, and Authorize Related Agreements

Proposed Motion

Staff recommends the Board of Directors request and approve the adoption by LCRA of the Amended and Restated Twentieth Supplemental Resolution to the Controlling Resolution establishing the LCRA Transmission Contract Revenue Financing Program (Controlling Resolution) to authorize an extension and increase in the capacity of the LCRA Transmission Contract Revenue Notes, Series C and Taxable Series C (Series C Notes) not to exceed \$400 million in aggregate principal amount and other amendments. Staff also seeks authorization for the president and CEO or his designee to negotiate and execute all related documents setting forth the terms and conditions governing the issuance of such notes in an amount up to \$400 million, including but not limited to a new amended and restated note purchase agreement among LCRA, LCRA Transmission Services Corporation (LCRA TSC) and Bank of America N.A. (Series C NP Agreement) for the Series C Notes.

Board Consideration

A supplemental resolution to the existing Controlling Resolution requires Board approval. The amendment to the Series C Notes program complies with the covenants of the LCRA Controlling Resolution and with LCRA TSC Board Policy T301 – Finance. Section 8503.004(p) of the Texas Special District Local Laws Code (LCRA Act) authorizes the Board to issue debt under certain conditions.

Budget Status and Fiscal Impact

Staff anticipates that the Series C Notes program and the extension of the Series C NP Agreement will allow LCRA to issue private bank debt on behalf of LCRA TSC to finance the construction of facilities and delay the issuance of long-term bonds, which may have higher interest rates in the current market. This credit facility agreement provides additional financing flexibility, more diversity in bank exposure and lower carrying costs. Staff anticipates LCRA will experience lower debt service costs until long-term bonds are issued. The proposed fees for this facility are in line with current market pricing.

Summary

Staff recommends the Board request, consent and approve the adoption of the Amended and Restated Twentieth Supplemental Resolution and authorize the general manager, chief financial officer or treasurer to negotiate with Bank of America N.A. and execute the Series C NP Agreement and other related documents.

The Series C NP Agreement will continue to allow LCRA to sell Series C Notes directly to the bank up to \$400 million. Each of the Series C Notes issued will have a maximum 364-day term. The direct-purchase facility with the bank provides an alternative structure that eliminates marketing and remarketing risk that can occur with a public market commercial paper program. This private debt facility structure does not require public credit ratings to be issued and maintained.

LCRA, as the conduit issuer for LCRA TSC, through amendments to the debt programs and bank credit facilities, currently has approved LCRA TSC to borrow from a \$150 million tax-exempt commercial paper program with JPMorgan, a \$200 million private placement Series C Notes with Bank of America N.A., a \$100 million private placement Series E Notes with U.S. Bank, and \$100 million private placement Series F Notes with Frost Bank.

Staff now seeks approval of an amendment to the Series C Notes to increase the capacity from \$200 million to not to exceed \$400 million in aggregate principal amount, among other amendments. Staff also seeks to extend the facility for another three-year term. Each of the Series C Notes issued will have a maximum 364-day term.

The Series C Notes will be issued on parity with LCRA TSC contract revenue bonds and notes pursuant to the LCRA Controlling Resolution and in compliance with the variable debt limitations in LCRA TSC Board Policy T301 – Finance (25% of the total long-term debt and total equity of LCRA TSC).

Supplements to the restated Transmission Contract Revenue Debt Installment Payment Agreement between LCRA and LCRA TSC, dated March 1, 2003, secure the Series C Notes by obligating LCRA TSC to make all payments related to the notes. The notes may be refunded into long-term debt when the conditions are advantageous to LCRA TSC.

6. Capital Improvement Projects Approval

Proposed Motion

Approve the Capital Improvement Project Authorization Request for the projects and associated lifetime budgets as described in exhibits A and B.

Board Consideration

LCRA Transmission Services Corporation Board Policy T301 – Finance requires LCRA TSC Board of Directors approval for any project exceeding \$1.5 million.

Budget Status and Fiscal Impact

- All projected fiscal year 2026 expenditures for these projects are within the total annual budget approved in the FY 2026 capital plan.
- Staff will monitor the FY 2026 forecast and will request a fiscal year budget increase if needed.
- The treasurer and chief financial officer will release funds as needed.
- Project costs will be funded through LCRA TSC regulated rates, subject to approval by the Public Utility Commission of Texas.

Summary

Staff recommends approval of the service reliability and system capacity projects described in exhibits A and B. These projects meet legal requirements in the Public Utility Regulatory Act and PUC rules.

Project funds will pay for activities, including but not limited to project management, engineering, materials acquisition, construction and acquisition of necessary land rights. LCRA TSC representatives will perform all necessary regulatory, real estate, environmental and cultural due diligence activities.

7. Acquisition of Interests in Real Property – Use of Eminent Domain in Crane County

Proposed Motion

I move that the LCRA Transmission Services Corporation Board of Directors adopt the attached resolution; that the Board authorize by record vote the use of the power of eminent domain to acquire rights in the property described in Exhibit 1 to the resolution for the acquisition of easement rights for the North McCamey to Sand Lake Transmission Line Addition project to provide for the safe and reliable transmission of electric energy and, on behalf of LCRA and at LCRA's expense, to provide for communications and to facilitate broadband services on the North McCamey to Sand Lake (T786 and T787) transmission lines; and that the first record vote apply to all units of property to be condemned.

Board Consideration

LCRA TSC Board Policy T401 – Land Resources and Section 2206.053 of the Texas Government Code require Board authorization prior to the initiation of eminent domain proceedings.

Section 2206.053 of the Texas Government Code provides that if two or more Board members object to adopting a single resolution for all units, a separate record vote must be taken for each unit of property. If two or more units of real property are owned by the same person, those units may be treated as one unit of property.

LCRA uses LCRA TSC to provide LCRA with fiberoptic communications and broadband services at LCRA's expense pursuant to LCRA Board Policy 220 – Telecommunications and Section 8503.032 of the Special District Local Laws Code.

Budget Status and Fiscal Impact

The acquisition cost was included in the Board-approved budget for the North McCamey to Sand Lake Transmission Line Addition project.

Summary

LCRA TSC proposes to acquire easement rights in Crane County for the North McCamey to Sand Lake Transmission Line Addition project. O'Brien Right of Way Valuation will perform independent appraisals of the interests in real property to be acquired to determine just compensation to the landowners.

Staff will make an initial offer to acquire the necessary interests in real property voluntarily from the landowners listed on Exhibit C, as required by Section 21.0113 of the Texas Property Code. Staff will continue to negotiate for the purchase of the interests in real property. Staff seeks Board authorization to proceed with condemnation if an agreement cannot be reached with the landowner(s).

Staff has provided to the Board descriptions of the specific property to be acquired and will attach the descriptions to the resolution.

LCRA TSC representatives will perform environmental and cultural due diligence studies and address all identified concerns. Staff requests that the Board adopt the resolution in Exhibit D authorizing the initiation of condemnation proceedings on the first record vote for all units of property.
