

NOTICE

LCRA has received an update to the application for a Quarry/Mine permit for an aggregate processing plant and quarry operation at this location.

Project Name: Burnet Quarry

Applicant: Asphalt Inc, LLC
11675 Jollyville Rd, Suite 150
Austin, TX 78759

Project Description: The development of a construction aggregate processing plant and quarry operation on an approximately 710-acre site at 3221 FM 3509 in Burnet, TX 78611. In late March, the applicant submitted an updated application with a change related to the way offsite drainage would be handled. The updated application includes plans to divert offsite drainage around the project site.

LCRA is conducting a technical review to determine whether the application meets the requirements of the Highland Lakes Watershed Ordinance. In response to LCRA staff comments, the applicant updated the application to reflect a redesign to divert offsite drainage. The application and subsequent correspondence between LCRA and the applicant are available for viewing at www.lcra.org/hlwo.

LCRA welcomes comments from members of the public on the application. Comments may be submitted online at www.lcra.org/hlwo or mailed or delivered to LCRA.
