

COVID-19 Safety Protocols

LCRA Suppliers and Contractors

For the safety of our employees and contractors, it is critical that LCRA suppliers and contractors follow these COVID-19 safety protocols:

- Complete a daily screening of your health before arriving on-site for work.
- Maintain social distancing when possible.
- Practice good hygiene, including frequent handwashing.
- Report if you have been medically diagnosed or tested positive for COVID-19, and:
 - Have been at an LCRA facility or in an LCRA vehicle in the last 72 hours, or
 - Had close contact with LCRA staff in the 48 hours prior to symptom onset or testing date and time to present.

Reporting COVID-19 incidents

Scenario	Reporting process	Other actions
You or a member of your team assigned to LCRA is experiencing one or more COVID-19 symptoms.	No reporting required.	Immediately remove yourself or your team member from the LCRA work site until symptoms are resolved.
You or a member of your team assigned to LCRA has been exposed to someone with a positive COVID-19 test result.	No reporting required.	Immediately remove yourself or your team member from the LCRA work site until 10 days have passed with no symptoms or a positive test.
You or a member of your team assigned to LCRA has been medically diagnosed with COVID-19 or received a positive test result.	Report it immediately to your LCRA point of contact and send an email to LCRAnotices@lcr.org .	Immediately remove yourself or your team member from the LCRA work site.
