LCRA Transmission Services Corporation invites you to an open house to learn about a new electric transmission line and substation facility proposed for Gillespie, Kerr and Kimble counties.

The open house will have a come-and-go format; no RSVP is needed. Attendees will have an opportunity to ask questions and provide comments regarding the project. Representatives and experts from LCRA TSC and POWER Engineers, the consulting firm responsible for developing preliminary alternative transmission line routes and potential substation sites, will be available to discuss specific aspects of the project.
