

# LCRA WMP WAM MODEL RESULTS

## Table of Contents

RUN13

| Page | Category | Quantity Presented (units are in acre-feet unless specified otherwise)                                   |
|------|----------|----------------------------------------------------------------------------------------------------------|
| 1    | System   | End of month LCRA combined system storage (Lakes Buchanan and Travis)                                    |
| 2    | System   | Total Inflows to Lakes Buchanan and Travis                                                               |
| 3    | System   | Storable inflows before instream and bay releases                                                        |
| 4    | System   | Total flow reaching Matagorda Bay                                                                        |
| 5    | Ag       | NGW Water Demand (after curtailment policy applied)                                                      |
| 6    | Ag       | Total Highland Lakes stored water provided to all non-Garwood irrigation operations                      |
| 7    | Ag       | Total other water provided to non-Garwood irrigation operations                                          |
| 8    | Ag       | Total supply provided to non-Garwood irrigation operations                                               |
| 9    | Ag       | Total Diversions by Garwood (ROR+PT+SW)                                                                  |
| 10   | Env      | Total water provided for instream flows (storable inflows and stored water)                              |
| 11   | Env      | Total water provided for Matagorda Bay based on storable inflows (does not include threshold carry over) |
| 12   | Env      | Additional Arbuckle release for Matagorda Bay Threshold beyond storable inflow obligation                |
| 13   | Env      | Instream flow condition (base average, base dry, subsistence) shown on LCRA System Storage               |
| 14   | Env      | Bay inflow condition (OP604, OP603, OP602, OP601, Threshold) shown on LCRA System Storage                |
| 15   | Env      | Total flow at Columbus gage (average monthly flow in cfs)                                                |
| 16   | Env      | Total flow at Wharton gage (average monthly flow in cfs)                                                 |
| 17   | Env      | Total Support for Bay (threshold & operational - does not include additional Arbuckle release)           |
| 18   | Env      | Total Support for Bay (threshold & operational - includes additional Arbuckle release)                   |
| 19   | Env      | Total Highland Lakes Support for Bay (Arbuckle Contributions not Included)                               |
| 20   | Env      | Regular Arbuckle Support for Bay (Additional Arbuckle release not Included)                              |

## 07/15/2026 End of month LCRA combined system storage (Lakes Buchanan and Travis)

01:44 PM
