Good afternoon Mr. Mercado,

LCRA approves extending the response to the HLDO technical review comments until September 8, 2023. Below, please make note of the application processing requirements.

Per HLDO 6.1(d)(v) Extension of Time to Provide Requested Information or Abatement Due to Pending Permits

An Applicant may request an extension of time to provide the information requested by staff during the administrative or technical review. Requests for extensions shall be in writing and shall explain in detail the need for additional time. Such requests shall be approved in writing by LCRA, which approval shall not be unreasonably withheld. With the exception of requests for extensions due to delays resulting from permits and authorizations from other regulatory entities, in no event shall the cumulative amount of time granted to an Applicant exceed six months from the date that the application for a Permit was filed. Technical review may be abated by staff if a Tier III Dredge and Fill permit is also being requested under the Highland Lakes Dredge and Fill Ordinance or at Applicant’s request based on to delays resulting from processing of Applicant’s other permits. Such abatement must be requested or re-evaluated every six months but shall not exceed a cumulative period of three years, unless supported by good cause. If an extension or abatement expires without action, the Application is considered withdrawn and the Applicant must resubmit a new Application with the appropriate fees. The LCRA General Manager will determine if good cause exists.

Please let us know if you have any questions.

Tom Hegemier, PE, CFM
Manager, Water Quality Protection
Good afternoon Mr. Hegemier,

On behalf of Collier Materials, Westward Environmental is requesting a time extension to respond to comments for the Kingsland I HLDO (App #2023-5057).

Please see the attached letter and let us know if you have any questions.

Thank you,

Nicolas E. Mercado, P.E.
Project Engineer
