

MCKINNEY ROUGHS NATURE PARK

Teen Adventure Camp

(Ages 13-15)

Teen campers learn the skills needed to become a naturalist and outdoor leader. In addition to the activities below, campers will swim, take on a challenge course, enjoy a river trip and collaborate with other campers to plan and execute an outdoor adventure.

—

ADVANCED BUSHCRAFT AND TRACKING *(August 2-6)*

Campers practice bushcraft skills for emergency situation preparedness and survival. With instruction and supervision, campers practice fire-making, food foraging, primitive weapon crafting, water purification and shelter building. Skills are tested in a capture-the-flag style scavenger hunt, while zombies attempt to steal valuable resources. Teams gather the necessary means of survival and use newly acquired skills to outlast others.

Camps will operate in accordance with Texas Department of State Health Services and Centers for Disease Control and Prevention guidelines.
