Date Administratively Complete: 07/07/2022

NOTICE

NOTICE OF RECEIPT OF ADMINISTRATIVELY COMPLETE APPLICATION AND INTENT TO OBTAIN PERMIT

Application Number: Project Name: Applicant Name and Address:	2022-4663 The Ranch on LBJ (Phase 3) Dredge & Fill Sam Boyd P.O. Box 4929 Horseshoe Bay, TX 78657
Site Location:	C.R. 134 & Hannah's Way Burnet, TX
Project Description:	Extension of an existing canal within an approx. 870' long, 75' wide area along an unnamed tributary to Lake LBJ, entailing approx. 13,500 cubic yards of dredged material.

The Lower Colorado River Authority has received an application for a Tier II Dredge and Fill Permit pursuant to the LCRA Highland Lakes Dredge and Fill Ordinance (the Ordinance). LCRA has determined the application is administratively complete.

A determination that an application is administratively complete does not mean that the applicant has been approved for a permit. A determination of administrative completeness only means that the applicant has submitted information that is required by the Ordinance. LCRA must review and evaluate the information in an application to determine if a permit should be issued. This is referred to as the technical review.

Upon the completion of the technical review and finding that the application meets the standards in the Ordinance, LCRA will post a Notice of Draft Permit at <u>www.lcra.org/hldo</u>.

LCRA's technical review of a Tier II application may take up to 30 days. The technical review period may be extended if additional information is required by staff. Please refer to the LCRA webpage above periodically for the posting of the Notice of Draft Permit. The Notice of Draft Permit will include instructions for submitting written comments and the deadline by which written comments must be uploaded or postmarked.

Additional information regarding this application may be found at <u>www.lcra.org/hldo</u> or by contacting LCRA Water Quality Engineering and Planning at 512-578-2324. Questions or comments also may be mailed or delivered in person to the following addresses:

<u>Mail:</u> LCRA – Water Quality Engineering and Planning P.O. Box 220 Mail Stop L106 Austin, TX 78767

Delivered:
