Erosion and Sediment Control Maintenance Contact

Name: _____ Phone #: _____ Email address: _____

Property Location & Information

Address of property proposed to be developed: _____

Legal Description: Subdivision: _____
Section: _____ Block: _____ Lot(s): _____

Total number of acres: _____ Total square feet of new impervious cover: _____

Total number of acres disturbed: _____ Lake: _____ County: _____ Tax Parcel ID: _____

Proposed Activity: Single family Commercial Quarry or Mine Other (specify): _____

Project Description: _____

Select one or more of the following categories and attach an erosion/sedimentation control plan for the proposed activity. If a waterway is present, show buffer zone (see Sec. 5.1 (c) and 5.2 (c) of the Ordinance and Ch.2 of the Technical Manual).

Development creates less than 10,000 square feet of impervious cover, less than 1 acre of land is disturbed and meets waterway buffer zone standards. Provide a copy of the construction plans or plat showing location and amount of impervious cover and area that will be disturbed.

Plat approved by a governmental entity (City or County) prior to the effective date of the Ordinance (2/1/1990 in Travis County, 6/1/1992 in Burnet or Llano County) and the development meets waterway buffer zone standards. Provide a copy of the plat showing plat recording information and erosion/sediment control plan.

Development of a single-family residence creates more than 10,000 square feet of Impervious Cover, less than one acre of land is disturbed, the site complies with the downstream buffer guidelines found in the LCRA Technical Manual and meets waterway buffer zone standards. Provide a copy of the construction plans or plat showing location and amount of impervious cover and area that will be disturbed.

Redevelopment that results in a cumulative increase in impervious cover, less than 10,000 square feet, less than 1 acre of land is disturbed and meets waterway buffer zone standards. Provide a copy of the construction plans or plat showing location and amount of impervious cover and area that will be disturbed.

Quarry or mine activity outside of a creek or river buffer zone that creates less than 10,000 square feet of impervious cover and will disturb less than 5 acres of land. Provide a plan showing proposed disturbed area and improvements.
