

MATAGORDA BAY NATURE PARK

Stingray Camp

(Ages 9-12)

In addition to the beach games and activities below, campers will get the opportunity to climb a rock wall, participate in archery and fishing, create coastal-themed arts and crafts and learn about conservation.

—

CAST AWAY *(Week 1: June 10-14)*

Future anglers will discover the skills and science of fishing the Colorado River and Matagorda Bay. Campers will learn about food chains and water quality, while fishing from a kayak in the wetlands. At the end of camp, campers will get their Texas Parks and Wildlife Junior Angler Certification and compete in a camp-wide fishing tournament.

AQUATIC EXPLORERS *(Week 2: June 17-21)*

Explore the numerous habitats along the Gulf Coast and the species within them. Campers will use geocaching and wayfinding along the Colorado River and kayak through the wetlands on a scavenger hunt.
