

Water Demand Summary – LCRA 2015 Water Management Plan, Water Management Plan Update, 2021 Region K

	2015 WMP ¹	WMP Update		2021 Region K
	(a-f/yr)			
		Normal/Average	High/Max	
Municipal/Manufacturing				
City of Austin	193,334	167,300	215,900	215,900
Other	92,252	109,000	130,200	Not reported
Steam-electric				
LCRA power plants	25,500	13,200	19,700	Not individually reported
COA power plants	19,000	11,800	18,600	
STP forced evaporation	47,000	39,400	39,400	
Bastrop Energy Partners	2,300	2,300	2,300	
Total	93,800	66,700	80,000	152,006²
Agriculture				
Lakeside	139,700	114,000	135,300	Not individually reported
Garwood	92,400	88,000	100,000	
Pierce Ranch	27,700	27,000	30,000	
Gulf Coast	178,700	139,000	156,700	
Total	438,500	368,000	422,000	553,810³

1. Demands in the 2015 WMP were held constant for all years except agriculture demands. The demand for agriculture reported here is the 90th percentile, as it was reported in the 2015 WMP.
2. Includes steam electric demands from Bastrop, Fayette, Llano, Matagorda and Travis Counties (10,258, 49,211, 1,748, 80,536, 10,253 a-f/yr, respectively). Includes demands that are sourced from groundwater.
3. Includes irrigation demand from Colorado, Matagorda, and Wharton Counties (173,112, 191,588, and 189,110 a-f/yr, respectively). Includes demands that are sourced from groundwater.
